5. Obstacles faced & strategies adopted to overcome them.

Women are considered in the society only to perform duties like bring up children caring every family member & other household activities. There are old and traditional faiths of people coming out for years that men are for they field where as women are only for the home.

It has been observed that most of the policies programs view empowerment in the economic sense only working in the belief that economic self – reliance empowers women ignoring other variable like health,education, literacy etc

To overcome these obstacles college provided a separate platform 'yuvatisabha' through which there is overall development of girl students by arranging the different eminent &specialist lecture on different subject college also arrange various skill related workshop for teacher educator & also provided job opportunity in various reputed school. College focus on interview technique, Resume writing mock interview session. For students

6. Impact of Practice:-

The provision of different activities on the platform provided by college exclusively for women had made hard &fruit full efforts to achieve mission of institute. The employment of students

special woman is a long transparent & healthy mechanism required continuous evaluation in education extracurricular activities college has success to impart higher education & global dimension to student teacher.

7). Resources required:-

The lack of resources to conduct programmes has been circumvented by mobilizing our own contributions along with sponsorship for the conduct very few programs

Arrange the different co- curricular and extracurricular activity, invite the eminent personalities to motivate girls students to change the attitude of girls

Non government organizations related to women empowerment would required to interact with our dais regularly
