

1) Title of best practice :- Personal hygienic awareness for school students.

2) The context that required the initiation of the practice :-

Sadguru Education Society's College of Education organize personal hygiene awareness program for school students in rural area each and every year it helps to maintain personal hygiene awareness among school student . This programme helps students the programme our college is located in main heart of the city college is surrounded by various government and non granted school many rural area students come from near villages for further education so college arrange lectures , medical checkup, expert lecture on women's personal hygienic .

3) Objectives :-

- 1) To aware the student for aware personal hygiene
- 2) To motivate the students for personal hygiene.
- 3) To provide student good opportunity & habits for personal hygiene
- 4) To arrange various programme for hygiene awareness program for school students.
- 5) To conduct personal hygiene programme for girls students.

4) The Practices :-

Woman's are internal part of society exploring the biological, socio- economic, cultural, political & spiritual factor affecting the health & development our college organize personal hygiene awareness programme for school students from different viral infection, specially girls students help the program . We provided guidance & personal counseling for personal hygiene & other health issues expert.

College organize expert lecture on personal health awareness. Specially girls students for health issues & personal hygiene related to period. College also organize seminar interactive workshop on personal hygiene many Time College arrange expert doctor's lectures. To create the awareness in the society our college organizes covid vaccination camp for all & also organizes blood donation camp.

5) Obstacles faced & strategies adopted to overcome them :-

- 1) In rural area, the gender ideality us faced by girls includes access to education nutrition, legal rights , medical care
- 2) Women have to suffer a lot in their daily life to nourish their career as well as saving their family relationship
- 3) School students are not more aware about personal hygiene

6) Impact of Practice :-

The provision of different activities on the platform provided by college for rural school students personal hard & fruitful efforts to achieve mission of institute. Rural school students benefited by from the programme student know about personal hygiene awareness is important for health.

7) Resources Required :-

The lack of Resources to conduct programme our own contribution along with sponsorship for the conduct programs

Arrange the different lectures , doctor & other invite the eminent related to health & personal hygiene would required to interact with our dais regularly .

8) About the institution

**सद्गुरू शिक्षणशास्त्र
महाविद्यालयातर्फे
खेडी येथे आरोग्य तपासणी**

जळगाव - सद्गुरू शिक्षण शास्त्र महाविद्यालयातर्फे तालुक्यातील खेडी येथील सद्गुरू प्राथमिक आणि माध्यमिक विद्यालयात वैयक्तिक स्वच्छता उपक्रमांतर्गत १३ सप्टेंबर रोजी आरोग्य तपासणी करण्यात आली.
